

The [U.S. Department of Justice](#) (DOJ), [Office of Justice Programs](#) (OJP), [Office of Juvenile Justice and Delinquency Prevention](#) (OJJDP) is pleased to announce that it is seeking applications for its Fiscal Year (FY) 2012 Field-Initiated Research and Evaluation Program. This program furthers the Department's mission by supporting research and evaluation that will lead to the development of effective school programs, policies, and strategies to foster positive youth development and reduce the risk of victimization and delinquency.

OJJDP FY 2012 Field-Initiated Research and Evaluation Program

Eligibility

Eligible applicants are limited to states (including territories), units of local government (including federally recognized tribal governments, as determined by the Secretary of the Interior), nonprofit and for-profit organizations (including tribal nonprofit and for-profit organizations), and institutions of higher education (including tribal institutions of higher education). For-profit organizations must agree to forgo any profit or management fee. (See Eligibility, page 3.)

Deadline

Applicants must register with [Grants.gov](#) prior to submitting an application. (See How To Apply, page 10.) All applications are due by 11:59 p.m. eastern time on May 7, 2012. (See Deadlines: Registration and Application, page 3.)

Contact Information

For technical assistance with submitting an application, contact the Grants.gov Customer Support Hotline at 800-518-4726, 606-545-5035, or via e-mail to support@grants.gov. **Note:** Hotline hours of operation are 24 hours a day, 7 days a week, except federal holidays.

For assistance with any other requirements of this solicitation, contact the Justice Information Center (JIC) at 1-877-927-5657, via e-mail to JIC@Telesishq.com, or by [live Web chat](#). JIC hours of operation are 8:30 a.m. to 5:00 p.m. eastern time, Monday through Friday, and 8:30 a.m. to 8:00 p.m. eastern time on the solicitation close date.

OJJDP FY 2012 Field-Initiated Research and Evaluation Program (CFDA #16.541)

Overview

OJJDP's Field-Initiated Research and Evaluation (FIRE) program supports methodologically rigorous research and evaluation studies that inform policy and practice consistent with the Department of Justice's mission. OJJDP is focusing this year's FIRE program solicitation on funding studies of school-based practices, environment, and achievement that relate to reducing student victimization and the risk of delinquency. The goal of this year's FIRE program is to foster new and ongoing rigorous, scientific research and evaluation that has practical applications for the development of effective school programs, policies, and strategies that will foster positive youth development and reduce the risk of victimization and delinquency. This program is authorized by the Department of Justice Appropriations Act, 2012, Pub. L. No. 112-55, 125 Stat. 552, 617, and 42 U.S.C. Sec. 5631.

Deadlines: Registration and Application

Applicants must register with Grants.gov prior to submitting an application. OJP encourages applicants to register several weeks before the application submission deadline. In addition, applicants are urged to submit applications **at least 72 hours prior** to the due date of the application to allow time to receive the validation message and to correct any problems that may have caused a rejection notification. The deadline to apply for funding under this announcement is 11:59 p.m. eastern time on May 7, 2012. See How To Apply, page 10, for details.

Eligibility

Eligible applicants are limited to states (including territories), units of local government (including federally recognized tribal governments, as determined by the Secretary of the Interior), nonprofit and for-profit organizations (including tribal nonprofit and for-profit organizations), and institutions of higher education (including tribal institutions of higher education). For-profit organizations must agree to forgo any profit or management fee.

OJJDP welcomes joint applications from two or more eligible applicants; however, one applicant must be clearly indicated as the primary applicant (for correspondence, award, and management purposes) and the others indicated as co-applicants.

Program-Specific Information

The Juvenile Justice and Delinquency Prevention Act of 1974 established OJJDP to support local and state efforts to prevent juvenile delinquency, to improve the juvenile justice system response to delinquency, and to protect children from victimization. The Field-Initiated Research and Evaluation program is OJJDP's solicitation for investigator-initiated social and behavioral research and evaluation on topics that advance this mission. For the current fiscal year, OJJDP is soliciting proposals for research and evaluation efforts focusing on school and education

issues that relate to delinquency prevention and intervention and prevention of child victimization.

Recipients of federal funds awarded under this solicitation must budget only for those costs directly associated with the conduct of research and/or evaluation-related tasks. Funds are not available under this solicitation for the delivery of program services.

Purpose

The socialization process begins in the home, and the family remains the primary locus of influence throughout early childhood. Most children, once they reach school age, enter an expanding circle of influence among peers, teachers, and school administrators in the educational setting. A safe school environment, coupled with academic, social, and behavioral success in the classroom, increases the likelihood of positive youth development. Unfortunately, many youth do not benefit from a positive educational experience. Their school days might be characterized by one or more of the following concerns: exposure to violence and other safety issues; bullying; victimization; gang presence; learning disabilities that inhibit academic success; failure to meet grade-level academic achievement requirements; grade retention; inappropriate behavior leading to disciplinary action; exclusionary disciplinary actions, such as suspension and expulsion; in-school arrest; truancy; and failure to graduate.

Previous research has concluded that many school-related issues are risk factors for future delinquency, violence, and gang involvement. Among such identified risk factors are:

- Low achievement
- Truancy, suspension, and dropping out
- Identification as learning disabled
- Poorly organized and low functioning schools
- Low attachment to school and/or teachers
- Low academic aspirations
- Academic failure
- Negative labeling by teachers.

The school experience impacts the development of almost all juveniles in the United States. Without the structure and supervision that school provides, truants and dropouts often turn to delinquent or criminal behavior. A child's lack of commitment to school has been established as a risk factor for a variety of negative outcomes including: substance abuse, teen pregnancy, school dropout, and delinquency.

Consequently, OJJDP is interested in supporting research that investigates how to improve the level and quality of a juvenile's participation in school. OJJDP is also interested in ways to improve school safety and climate. Additionally, OJJDP is looking for research on how to stem the "school-to-prison pipeline;" to increase accessibility of quality education for all youth,

including juvenile offenders; and to advance use of positive discipline and learning policies and practices nationwide.

Applicants must clearly indicate a central research question and should present a thorough and reasonable research methodology. Additionally, applicants should clearly explain how the proposed research will fill a gap in the literature on schools and delinquency and how the anticipated findings will inform school policies and advance evidence-based practices.

OJJDP is committed to continually assessing the efficacy of emerging program approaches to: (1) identify promising and effective strategies, and (2) determine when particular approaches are not producing the intended, positive outcomes for youth participants. OJJDP strongly encourages applicants proposing to conduct impact analyses to use the most rigorous evaluation design possible to maximize the potential for the investigation to produce conclusive results regarding program outcomes.

Goals, Objectives, and Deliverables

The goal of the FY 2012 FIRE program is to foster new and ongoing rigorous, scientific research and evaluation that has practical applications for the development of effective school programs, policies, and strategies to foster positive youth development and reduce the risk of victimization and delinquency.

Objectives. OJJDP encourages applicants to propose research questions and/or evaluation studies that are consistent with the goals and objectives of this solicitation. Applicants may choose to address one or more of the following research and evaluation objectives or propose and justify their own area of investigation:

- Investigate the accessibility of quality education by youth involved in the juvenile justice system, including educational availability in detention and correctional facilities and for youth reentering their community.
- Evaluate innovative approaches to correctional education and strategies to facilitate youth's return to traditional academic settings from residential placement facilities.
- Address the needs of juveniles who are at a particularly high risk for delinquency due to poor academic performance or low test scores.
- Assess the impact of zero tolerance and exclusionary disciplinary procedures on youth's educational outcomes, overall adolescent development, involvement in delinquent behavior, and transition to young adulthood.
- Investigate ways to reduce the disproportionately higher use of exclusionary disciplinary procedures among racial and ethnic minorities and non-heterosexual youth.
- Evaluate innovative strategies for fostering schoolwide positive behavior, supportive school discipline, violence prevention, and self-discipline among students.
- Investigate law enforcement's role in school discipline, including in-school arrests, the use and impact of school resource officers, and school referrals to law enforcement for conduct code violations.

- Assess the effectiveness of in-school probation.
- Evaluate innovative strategies for bullying prevention and the improvement of services for victims of bullying.
- Investigate the impact of the presence of gangs on school environments, in terms of such factors as active on-campus recruitment, safety on campus, perceptions of student safety in transit to and from campus, impact on student attendance, impact on academic achievement, and disciplinary infractions and consequences.
- Evaluate promising approaches to improve attendance, reduce truancy, and prevent dropping out.
- Evaluate innovative approaches for school-based screening and intervention with students at risk for dropping out, academic failure, behavioral problems, substance abuse, gang involvement, depression, and suicide.
- Assess the impact of failure to meet mandatory academic achievement standards on students' attitudes toward attending school, educational aspirations, truancy, risk for dropping out, and delinquent behavior.
- Assess the impact of structured, supervised, afterschool programs on risk factors for delinquency.
- Conduct a rigorous program evaluation of a school-based program currently listed as "promising" on OJJDP's Model Programs Guide Web site, such that it meets the criteria for possible inclusion on CrimeSolutions.gov.

Deliverables. Proposals should contain a description of all products that the grantee will produce from the project. Successful applicants will submit relevant reports and deliverables to OJJDP. These will be a part of their progress reporting or special reports and include the following:

- Practitioner-friendly overview documents highlighting the project's goals and objectives as OJJDP requires. (Refer to OJJDP News @ a Glance and JuvJust publications for examples of the type of documents requested, www.ojjdp.gov/enews/enews.html.)
- Practitioner-friendly interim reports highlighting the project's progress and interim findings as required by OJJDP.
- A detailed progress report to OJJDP every 6 months, describing the status of the evaluation, methodological and implementation issues, progress toward the project goals, and any other issues that are relevant to the study's completion.
- A final, detailed report documenting the project and its findings. This publication should include an executive summary and be suitable for a non-technical audience, to be disseminated at OJJDP's discretion.
- A final, technical journal article highlighting key findings suitable for publication in a refereed journal.

If relevant, researchers should also plan for educational partners to review and comment on research products prior to submission and/or dissemination. Publication and dissemination of all reports and related products is at the discretion of OJJDP.

Evidence-based Programs or Practices

OJP considers programs and practices to be evidence-based when their effectiveness has been demonstrated by causal evidence (generally obtained through one or more outcome evaluations). Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of a change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which OJP considers a program or practice to be evidence-based. OJP's CrimeSolutions.gov and OJJDP's [Model Program Guide](#) Web sites are two resources that applicants may use to find information about evidence-based programs in criminal justice, juvenile justice, and crime victim services.

Amount and Length of Awards

OJJDP expects to award multiple grants under this solicitation that will range from \$200,000 to \$500,000 for a project period of as long as 48 months. Applicants should specify the requested award amount (as much as \$500,000) and the proposed project period. This amount is for the entire award period. OJJDP will make no additional awards to successful applicants in subsequent years.

Award recipients are to use all funds under this program in direct support of research and evaluation expenses. Grantees cannot use funds to support training, program development, or the provision of services (i.e., program implementation). However, they may use funds to evaluate training, prevention, and intervention programs.

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

Budget Information

Limitation on Use of Award Funds for Employee Compensation; Waiver: With respect to any award of more than \$250,000 made under this solicitation, federal funds may not be used to pay total cash compensation (salary plus bonuses) to any employee of the award recipient at a rate that exceeds 110% of the maximum annual salary payable to a member of the Federal Government's Senior Executive Service (SES) at an agency with a Certified SES Performance Appraisal System for that year. The 2012 salary table for SES employees is available at www.opm.gov/oca/12tables/indexSES.asp. Note: A recipient may compensate an employee at a higher rate, provided the amount in excess of this compensation limitation is paid with non-federal funds. (Any such additional compensation will not be considered matching funds where match requirements apply.)

The limitation on compensation rates allowable under an award may be waived on an individual basis at the discretion of the Administrator of OJJDP. An applicant requesting a waiver should include a detailed justification in the budget narrative of its application. Unless the applicant

submits a waiver request and justification with the application, the applicant should anticipate that OJP will request the applicant to adjust and resubmit its budget.

The justification should include the particular qualifications and expertise of the individual, the uniqueness of the service being provided, the individual's specific knowledge of the program or project being undertaken with award funds, and a statement explaining that the individual's salary is commensurate with the regular and customary rate for an individual with his/her qualifications and expertise, and for the work to be done.

Minimization of Conference Costs. No OJP funding can be used to purchase food and/or beverages for any meeting, conference, training, or other event. Exceptions to this restriction may be made only in cases where such sustenance is not otherwise available (i.e., extremely remote areas), or where a special presentation at a conference requires a plenary address where there is no other time for sustenance to be obtained. Such an exception would require prior approval from OJP. This restriction does not apply to water provided at no cost, but does apply to any and all other refreshments, regardless of the size or nature of the meeting. Additionally, this restriction does not impact direct payment of per diem amounts to individuals in a travel status under your organization's travel policy.

Updated Department of Justice and OJP guidance on conference planning, minimization of costs, and conference cost reporting will be forthcoming and will be accessible on the OJP website at www.ojp.usdoj.gov/funding/funding.htm.

Costs Associated with Language Assistance (if applicable). If an applicant proposes a program or activity that would deliver services or benefits to individuals, the costs of taking reasonable steps to provide meaningful access to those services or benefits by individuals with limited English proficiency may be allowable costs. Reasonable steps to provide meaningful access to services or benefits may include interpretation or translation services where appropriate.

For additional information, see the "Civil Rights Compliance" section of the OJP "Other Requirements for OJP Applications" Web page (www.ojp.usdoj.gov/funding/other_requirements.htm).

Match Requirement. This solicitation does not require a match. However, if a successful application proposes a voluntary match amount, the match amount incorporated into the OJP-approved budget becomes mandatory and subject to audit.

Performance Measures

To assist the Department in fulfilling its responsibilities under the Government Performance and Results Act (GPRA) of 1993, Public Law 103-62, and the GPRA Modernization Act of 2010, Public Law 111-352, applicants that receive funding under this solicitation must provide data that measure the results of their work done under this solicitation. Any award recipient will be required, post award, to provide the data requested in the "Data Grantee Provides" column so that OJP can calculate values for the "Performance Measures" column. Performance measures for this solicitation are as follows:

Objective	Performance Measure(s)	Description	Data Grantee Provides
To carry out research or evaluation studies that have practical applications for the development of effective school programs, policies, and strategies to foster positive youth development and reduce the risk of victimization and delinquency.	Percentage of research-related deliverables (reports, etc.) completed on time.	The number of published research and development products and publications based upon grant-funded research or evaluation studies or training curricula development during the reporting period. Agency records are preferred data source.	Number of deliverables to be submitted to OJJDP (as outlined in the program narrative). Number of deliverables completed and submitted to OJJDP on time (as determined by the timeline in the applicant's proposal). Deliverables will differ depending upon the specific project requirements.
	Percentage of deliverables that meet OJJDP's expectations for depth, breadth, scope and quality of study, and pertinence.		Number of deliverables that meet OJJDP's expectations for depth, breadth, scope and quality of study, and pertinence, as determined and reported by OJJDP.

Submission of performance measures data is not required for the application. Instead, applicants should discuss in their application their proposed methods for collecting data for performance measures. Refer to the section What an Application Is Expected To Include on page 12 for additional information.

Human Subjects and Confidentiality Requirements

The following requirements must be met for all applications that propose to conduct research and include human subjects. Research is defined as follows:

Research means a systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge. Activities that meet this definition constitute research for the purposes of this policy, whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities. 28 C.F.R. § 46.102(d).

DOJ regulations (28 C.F.R. Part 46) protect the human subjects of federally funded research. In brief, 28 C.F.R. Part 46 requires that most research involving human subjects that is conducted or supported by a federal department or agency be reviewed and approved by an Institutional Review Board (IRB), in accordance with the regulations, before federal funds are expended for that research. As a rule, persons who participate in federally funded research must provide their "informed consent" and must be permitted to terminate their participation at any time. Funding recipients, before they will be allowed to spend OJP funds on any research activity involving human subjects, must submit appropriate documentation to OJP showing compliance with 28 C.F.R. Part 46 requirements, as requested by OJP.

DOJ regulations (28 C.F.R. Part 22) require recipients of OJP funding to submit a Privacy Certificate as a condition of approval of any grant application or contract proposal that contains a research or statistical component under which "information identifiable to a private person" will be collected, analyzed, used, or disclosed. The funding recipient's Privacy Certificate includes a description of its policies and procedures to be followed to protect the confidentiality of identifiable data. 28 C.F.R. § 22.23. The Department's regulations provide, among other matters, that: "Research or statistical information identifiable to a private person may be used only for research or statistical purposes." 28 C.F.R. § 22.21. Moreover, any private person from whom information identifiable to a private person is collected or obtained (either orally or by means of written questionnaire or other document) must be advised that the information will only be used or disclosed for research or statistical purposes and that compliance with the request for information is voluntary and may be terminated at any time. 28 C.F.R. § 22.27.

Applicants selected for an award will be required to submit all appropriate IRB and privacy documents prior to spending OJP funds for research-related activities.

Notice of Post-Award FFATA Reporting Requirement

Applicants should anticipate that OJP will require all recipients (other than individuals) of awards of \$25,000 or more under this solicitation, consistent with the Federal Funding Accountability and Transparency Act of 2006 (FFATA), to report award information on any first-tier subawards totaling \$25,000 or more, and, in certain cases, to report information on the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients. Each applicant entity must ensure that it has the necessary processes and systems in place to comply with the reporting requirements should it receive funding. Reports regarding subawards will be made through the FFATA Subaward Reporting System (FSRS), found at www.fsrs.gov.

Please note also that applicants should anticipate that no subaward of an award made under this solicitation may be made to a subrecipient (other than an individual) unless the potential subrecipient acquires and provides a Data Universal Numbering System (DUNS) number.

How To Apply

Applications will be submitted through Grants.gov. Grants.gov is a "one-stop storefront" that provides a unified process for all customers of federal awards to find funding opportunities and apply for funding. Complete instructions on how to register and submit an application can be found at www.Grants.gov. If the applicant experiences technical difficulties at any point during this process, call the Grants.gov Customer Support Hotline at 800-518-4726, 606-545-5035, or via e-mail to support@grants.gov, 24 hours a day, 7 days a week, except federal holidays. Registering with Grants.gov is a one-time process; however, **processing delays may occur, and it can take up to several weeks** for first-time registrants to receive confirmation and a user password. OJP highly recommends that applicants start the registration process as early as possible to prevent delays in submitting an application package by the specified application deadline.

All applicants are required to complete the following steps:

- 1. Acquire a Data Universal Numbering System (DUNS) number.** In general, the Office of Management and Budget requires that all applicants (other than individuals) for federal

funds include a DUNS number in their applications for a new award or renewal of an existing award. A DUNS number is a unique nine-digit sequence recognized as the universal standard for identifying and keeping track of entities receiving federal funds. The identifier is used for tracking purposes and to validate address and point of contact information for federal assistance applicants, recipients, and subrecipients. The DUNS number will be used throughout the grant life cycle. Obtaining a DUNS number is a free, one-time activity. Obtain a DUNS number by calling Dun and Bradstreet at 866–705–5711 or by applying online at www.dnb.com. A DUNS number is usually received within 1-2 business days.

2. **Acquire or renew registration with the Central Contractor Registration (CCR) database.** OJP requires that all applicants (other than individuals) for federal financial assistance maintain current registrations in the CCR database. An applicant must be registered in the CCR to successfully register in Grants.gov. The CCR database is the repository for standard information about federal financial assistance applicants, recipients, and subrecipients. Organizations that have previously submitted applications via Grants.gov are already registered with CCR, as it is a requirement for Grants.gov registration. Note, however, that applicants must **update or renew their CCR registration annually** to maintain an active status. Information about CCR registration procedures can be accessed at www.ccr.gov.
3. **Acquire an Authorized Organization Representative (AOR) and a Grants.gov username and password.** Complete the AOR profile on Grants.gov and create a username and password. The applicant organization's DUNS number must be used to complete this step. For more information about the registration process, go to www.grants.gov/applicants/get_registered.jsp.
4. **Acquire confirmation for the AOR from the E-Business Point of Contact (E-Biz POC).** The E-Biz POC at the applicant organization must log into Grants.gov to confirm the applicant organization's AOR. Note that there can be more than one AOR for the organization.
5. **Search for the funding opportunity on Grants.gov.** Use the following identifying information when searching for the funding opportunity on Grants.gov. The Catalog of Federal Domestic Assistance number for this solicitation is 16.541, titled "Part E – Developing, Testing and Demonstrating Promising New Programs" and the funding opportunity number is OJJDP-2012-3246.
6. **Complete the Disclosure of Lobbying Activities.** All applicants must complete this information. An applicant that expends any funds for lobbying activities must provide the detailed information requested on the form, *Disclosure of Lobbying Activities*, (SF-LLL). An applicant that does not expend any funds for lobbying activities should enter "N/A" in the required highlighted fields.
7. **Submit an application consistent with this solicitation by following the directions in Grants.gov.** Within 24–48 hours after submitting the electronic application, the applicant should receive an e-mail validation message from Grants.gov. The validation message will state whether the application has been received and validated or rejected, with an explanation. **Important:** Applicants are urged to submit applications **at least 72 hours prior** to the due date of the application to allow time to receive the validation message and to correct any problems that may have caused a rejection notification.

Note: Grants.gov will forward the application to OJP's Grants Management System (GMS). GMS does not accept executable file types as application attachments. These disallowed file types include, but are not limited to, the following extensions: ".com," ".bat," ".exe," ".vbs," ".cfg," ".dat," ".db," ".dbf," ".dll," ".ini," ".log," ".ora," ".sys," and ".zip."

Note: Duplicate Applications. If an applicant submits multiple versions of an application, OJJDP will review the most recent version submitted.

Experiencing Unforeseen Grants.gov Technical Issues

If an applicant experiences unforeseen Grants.gov technical issues beyond the applicant's control that prevent submission of its application by the deadline, the applicant must email the Justice Information Center (see Page 1 for contact information) **within 24 hours after the application deadline** and request approval to submit its application. The applicant must include in the e-mail: a description of the technical difficulties, a timeline of submission efforts, the complete grant application, the applicant DUNS number, and Grants.gov Help Desk tracking number(s) the applicant has received. **Note: Requests are not automatically approved by OJJDP.** After the program office reviews all of the information submitted, and contacts the Grants.gov Help Desk to validate the technical issues reported, OJP will contact the applicant to either approve or deny the request to submit a late application. If the technical issues reported cannot be validated, the application will be rejected as untimely.

To ensure a fair competition for limited discretionary funds, the following conditions are not valid reasons to permit late submissions: (1) failure to begin the registration process in sufficient time, (2) failure to follow Grants.gov instructions on how to register and apply as posted on its Web site, (3) failure to follow all of the instructions in the OJP solicitation, and (4) technical issues experienced with the applicant's computer or information technology environment, including firewalls.

Notifications regarding known technical problems with Grants.gov, if any, are posted at the top of the OJP funding Web page at www.ojp.usdoj.gov/funding/solicitations.htm.

What an Application Is Expected To Include

Applicants should anticipate that failure to submit an application that contains all of the specified elements may negatively affect the review of the application; and, should a decision be made to make an award, it may result in the inclusion of special conditions that preclude access to or use of award funds pending satisfaction of the conditions.

Moreover, applicants should anticipate that applications that are unresponsive to the scope of the solicitation, or that do not include application elements designated by OJJDP to be critical, will neither proceed to peer review nor receive further consideration. Under this solicitation, OJJDP has designated the following application elements as critical: Program Narrative, Budget Detail Worksheet, or a Budget Narrative.

OJP strongly recommends use of appropriately descriptive file names (e.g., "Program Narrative," "Budget Detail Worksheet and Budget Narrative," "Timelines," "Memoranda of Understanding," "Resumes") for all attachments. OJP recommends that resumes be included in a single file.

1. Information to Complete the Application for Federal Assistance (SF-424)

The SF-424 is a standard form used as a cover sheet for submission of pre-applications, applications, and related information. Grants.gov and GMS take information from the applicant's profile to populate the fields on this form. When selecting "type of applicant," if the applicant is a for-profit entity, select "For-Profit Organization" or "Small Business" (as applicable). Instructions on completing the SF 424 are available at www.grants.gov/assets/SF424Instructions.pdf.

2. Program Narrative

Applicants must submit a program narrative that presents a detailed description of the purpose, goals, objectives, strategies, design, and management of the proposed program. The program narrative should be double-spaced with 1-inch margins, not exceeding 30 pages of 8½ by 11 inches, and use a standard 12-point font, preferably Times New Roman. Pages should be numbered "1 of 30," etc. The project abstract, tables, charts, pictures, etc., including all captions, legends, keys, subtext, etc., may be single-spaced, and will count in the 30-page limit. Material required under the "Budget and Budget Narrative" and "Additional Attachments" sections will not count toward the program narrative page count. Applicants may provide bibliographical references as a separate attachment that will not count toward the 30-page program narrative limit. If the program narrative fails to comply with these length-related restrictions, noncompliance may be considered in peer review and in final award decisions.

Applicants may provide bibliographical references as a separate attachment that will not count toward the 30-page program narrative limit.

The program narrative should address the following selection criteria: (1) project abstract; (2) statement of the problem; (3) goals, objectives, and performance measures; (4) program design and implementation; and (5) capabilities/competencies. The applicant should clearly delineate the connections between and among each of these sections. For example, the applicant should derive the goals and objectives directly from the problems to be addressed. Similarly, the project design section should clearly explain how the program's structure and activities will accomplish the goals and objectives identified in the previous section.

The following sections should be included as part of the program narrative.

a. Project Abstract. Applicants should include a project abstract as the first page of the program narrative, and it is included in the page limitation specified above. The abstract should not exceed 200 words and briefly describe the project's purpose, identify the population to be served, and summarize the activities that the applicant will implement to achieve the project's goals and objectives. These goals and objectives should focus on short-term and intermediate outcomes (see Goals, Objectives, and Performance Measures, below). The abstract should describe how the applicant will measure progress toward these goals.

- **Permission to Share Abstract and Contact Information with Private Funders:** It is unlikely that OJJDP will be able to fund all competitive applications, but may have the opportunity to share unfunded competitive application information with private foundations. Applicants should indicate whether they give OJJDP permission to share their Abstract and Contact Information for both the
